Since 2004, BBM d.o.o. (BBM Software) has been a GSW partner and authorized reseller of the GSW Telnet Server for Windows and SSH Server for Windows. Located in Croatia, BBM Software creates software packages for businesses, providing them the ability to transfer data, remotely operate, simplify procedures and extend their business in many areas.

Founded in 1990, BBM Software produces programming support for various business segments. They focus on ease of use and speed of operation while retaining power and quality support. Currently, BBM has business applications installed in over 500 businesses and trades. They also develop automation and customer support applications for radio stations.

"BBM has been a dedicated reseller for 10 years now. They are our only reseller in Croatia, so they are an important part of our reseller network. We look forward to celebrating 10 more years with BBM," said Doug Hitchcock of Georgia SoftWorks. "10 year milestones reseller anniversaries are important to note because they are a testimony to the longevity of our software and the companies that use it."

Georgia SoftWork's solutions are excellent with mobile devices, RF Terminals, Bar Code scanners and other data collection devices in wireless environments, making it a great match for the solutions that BBM Software provides. Through the GSW Software, BBM Solutions is able to offer their customers the GSW UTS, the GSW Telnet Server for Windows, SSH Server for Windows and numerous remote access utilities.

Georgia SoftWorks is a software development company located in Dawsonville, Georgia that has received worldwide recognition for their development of the GSW Telnet Server for Windows and SSH Server for Windows. They have resellers and end users on every continent (except Antarctica). Their software is used in countless industries, including Aircraft carriers, medical offices, bottling plants, grocery stores, food warehouses, educational institutions, government, airlines and more.

About Georgia SoftWorks:
Established in 1991, Georgia SoftWorks is a privately held software development company recognized for creating high performance data communications, system and telecommunications applications. Georgia SoftWorks has obtained a worldwide presence with its industrial SSH/Telnet Server for Microsoft Windows.

" 10 year milestones reseller anniversaries are important to note because they are a testimony to the longevity of our software and the companies that use it." "

GSW's long-term commitment to SSH/Telnet has led to the pioneering of major features such as Session Shadowing, Session Monitoring, Graceful Termination, Automatic Logon, Logon Scripting and more recently Team Services technology which allows mobile device users to transfer, swap, share and recover mobile device sessions. GSW has also provided the very first SSH Server to provide Digital Certificate Authentication with an Internet Information Server (IIS) like certificate-to-user account mapping. This includes 'One-to-one' and 'Many-to-one' mapping methods and also supports certificate trust lists (CTL).
