Mexico Reseller Reaches 10 Years Selling GSW Telnet Server for Windows

Georgia SoftWorks (GSW) Thanks Mayoristas de Tecnologia for 10 Years of Partnership Reselling the GSW Telnet Server for Windows and SSH Server for Windows.

Dawsonville, Georgia (PRWEB) July 14, 2015

Since July 2005, Mayoristas de Tecnologia has been an authorized reseller of the GSW Telnet Server for Windows and SSH Server for Windows. Headquartered in Mexico City, Mayoristas de Tecnologia is dedicated to meeting the needs of software vendors by representing them and offering a cost-effective, quality distribution channel.

"We picked to use the GSW software because in the beginning, it was highly recommended by one of our customers," said Israel Esquivel of Mayoristas de Tecnologia. "Then, after an exhaustive comparison versus others, it was the 'must have' option."

Mayoristas de Tecnologia uses the GSW software mostly in the Food and Beverage industries, followed by Distribution and then Retail. Most of their customers install the GSW software on an on-site server and mobile devices, including Intermec and Motorola products.

"Mayoristas de Tecnologia is a great asset to our reseller network," said Doug Hitchcock of GSW. "They know their market well and are a well-respected company. They are known for offering quality products, and we are honored to have a partnership with them. We look forward to many years working together in the future."

Georgia SoftWorks is a software development company located in Dawsonville, Georgia. They have obtained global recognition for their development of the GSW Telnet Server for Windows and SSH Server for Windows. They have resellers and end users all over the world. Their Telnet Server for Windows and SSH Server for Windows are industrial quality software designed for superior operation in demanding RF Terminal environments, making it an excellent match for the solutions that Mayoristas de Tecnologia provides.

"We chose the GSW software because of its stability and robustness," said Esquivel. "Also, the people at GSW. What you say is what you deliver. The prices, discounts; its 100% transparent. It is great to do business with a company like yours."

About Georgia SoftWorks:
Established in 1991, Georgia SoftWorks is a privately held software development company recognized for creating high performance data communications, system and telecommunications applications. Georgia SoftWorks has obtained a worldwide presence with its industrial SSH/Telnet Server for Microsoft Windows. GSW's long-term commitment to SSH/Telnet has led to the pioneering of major features such as Session Shadowing, Session Monitoring, Graceful Termination, Automatic Logon, Logon Scripting and more recently Team Services technology which allows mobile device users to transfer, swap, share and recover mobile device sessions. GSW has also provided the very first SSH Server to provide Digital Certificate Authentication with Internet Information Server (IIS) like certificate to user account mapping. This includes 'One-to-one' and 'Many-to-one' mapping methods and also support certificate trust lists (CTL).
