GSW Thanks Rodata Group for 10 Years of Reselling Telnet Server for Windows

Georgia SoftWorks (GSW) thanks Rodata Group for 10 years of partnership as an Authorized Reseller of the GSW [Telnet Server for Windows](#) and SSH Server for Windows.

Dawsonville, Georgia (PRWEB) March 31, 2015

Europe's Rodata Group has been an authorized reseller of the Georgia SoftWorks [Telnet Server for Windows](#) and SSH Server for Windows since 2005. The Rodata Group is the leading independent solution provider in Germany, Switzerland and Austria for mobile SAP and other ERP applications using State of the Art Software, Mobile Computing, Automatic Identification, LAN, WLAN and WWAN Technology.

"The Rodata Group is well-known and highly regarded company in Europe in their industry. Having such highly respected resellers builds an extra layer of trust on our software," said Diane Sexton of Georgia SoftWorks. "We appreciate the 10 years of partnership we have had with them and look forward to many more."

The [Rodata Group](#) is a vendor-independent system supplier for Auto-ID solutions. They specialize in mobile communication and identification solutions, with concepts based on barcode, RFID, and RTLS technologies. They primarily provide solutions for the commerce, transportation, manufacturing and healthcare industries, making it an excellent match for the GSW software.

Georgia SoftWorks is a software development company located in Dawsonville, Georgia, USA who has gained worldwide recognition for their development of the GSW [Telnet Server for Windows](#) and [SSH Server for Windows](#). As pioneers in the world of Telnet and SSH, they have end users and resellers in every continent (except Antarctica). Their software is used in a variety of industries, including government, automobile manufactures, schools, oil companies, airlines, pharmaceutical, medical, food and beverage, NASA, and many more.

About Georgia SoftWorks:

Established in 1991, Georgia SoftWorks is a privately held software development company recognized for creating high performance data communications, system and telecommunications applications. Georgia SoftWorks has obtained a worldwide presence with its industrial SSH/Telnet Server for Microsoft Windows. GSW's long-term commitment to SSH/Telnet has led to the pioneering of major features such as Session Shadowing, Session Monitoring, Graceful Termination, Automatic Logon, Logon Scripting and more recently Team Services technology which allows mobile device users to transfer, swap, share and recover mobile device sessions. GSW has also provided the very first SSH Server to provide Digital Certificate Authentication with an Internet Information Server (IIS) like certificate-to-user account mapping. This includes 'One-to-one' and 'Many-to-one' mapping methods and also supports certificate trust lists (CTL).
