

Georgia SoftWorks Team Services **SWAP** allows sessions to be SWAPPED between devices.

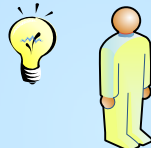

Team Members Helping Team Members!

Perform the best job possible with the available resources.

Sam can't quite reach several items with the truck mount tethered scanner!

Sam remembers **GSW Team Services**

Hey Barry, let swap devices. Use Team Services and put your device in Accept Swap Mode.

Sure, Sam. I can finish my stack with the Forklift. I need to swap back when I am done. Two keystrokes for Barry

Sam can swap sessions with Barry's wireless scanner.

They did not even have to log off!

Barry and Sam swapped devices but kept their original sessions!

Was the System Administrator Required?
No

Why? - User collaboration is more Efficient

How Long did it take to Swap?
Less than a Minute
