http://www.georgiasoftworks.com/download_telnetserver.htm

NEW FEATURES: Several new features are introduced in version 6.50.0020

Feature #	Description – **Major Features**
A04022	**SAPConsole Mobile Printing method replaced existing one.** An excellent printing technique named the "SAP print method" introduced. *Versatile and easier to use!*
A04023	**Universal Terminal Server (UTS) architecture made pubic.** UTS architecture unveiled. Always existed, however the naming of folders, executables, titles, etc. and User Manual has been updated to reflect design. Provides an accurate and better product description with the introduction of the GSW SSH2 Server. The Telnet Protocol is the default Protocol Interface and Application provided with the GSW UTS (Telnet Server). The SSH2 Protocol Interface can replace the Telnet Interface by applying the SSH2 Shield (which must be purchased separately) producing the GSW SSH2 Server.
A04024	**GSW Windows CE .Net Version 4.2 client introduced for select devices.** e.g.: Teklogix 753x devices
A04025	**GSW Software Installation Status to Program Group Added**
A04026	**Added SSH2 User Manual to Program Group**

DEFECT RESOLUTIONS

Resolution #	Description

Subscription Customers – Download and Install for Free!
Other Customers – It's a great time to upgrade to the current version.

SAPConsole Users – Don't forget to try the GSW Rocket Terminal Engine!
