http://www.georgiasoftworks.com/download_telnetserver.htm

Always striving to meet the demands of the industrial market, this release includes a feature to gain more screen space when using GSW Mobile Clients. This is especially useful on devices with small screens. Looking forward, GSW Engineering identified opportunities for compatibility enhancements with systems that have LSP (Layered Service Providers) loaded. These enhancements are also included.

NEW FEATURES: Several new features are introduced in version 6.50.0037

Feature #	Description –Features
Version	**6.50.0037**
Feature #	Description
A05049	**GSW Mobile Clients for Windows CE .NET 4.2 and Pocket PC 2003** No Scroll Bars option added to increase usable screen space.
A05050	**LSP (Layered Service Providers) compatibility enhancements**. A number of changes were made to enhance compatibility of the GSW Telnet/SSH2 Server and systems with Layered Service Providers loaded. This UTS version or later is required by Rocket Terminal Engine 1.39.0012
A05051	**User Manual Description of Automatic Logon Improvements**

Defect Resolutions:

Resolution #	Description – Defect Resolutions
Version	*6.50.0037*
Feature #	Description
R05011	On Intermec CK30 and possibly other CE .NET 4.2 devices, function keys send non-standard scan codes. This may cause applications that depend on standard scan codes to misbehave, for example: Norton Commander.

Subscription Customers – Download and Install for Free!
Other Customers – It's a great time to upgrade to the current version.

SAPConsole Users – Don't forget to try the GSW Rocket Terminal Engine!
