

Turkey's Buton eBusiness Solutions to Resell GSW Telnet Server for Windows

Georgia SoftWorks (GSW), developer of the [GSW Telnet Server for Windows](#), welcomes Buton eBusiness Solutions to their network of global resellers.

Dawsonville, GA (PRWEB) October 30, 2013

Turkey's Buton eBusiness Solutions (Buton) is now an authorized reseller of the [GSW Telnet Server for Windows](#). Buton is a software engineering services company whose main focus is delivering reliable and usable software, consultancy, as well as support and custom software development solutions to enterprise customers. Buton emphasizes that they offer best-of-breed software solutions for sales and operational excellence.

"We believe that excellence comes from experience, and experience in specific fields," Buton states on their website. "With this in mind, in order to deliver reliable, trusted and correct solutions to our customers, Buton has partnered with many global software vendors who are leaders in their respective areas."

Georgia SoftWorks is a software development company who is most noted for its development of the [GSW Telnet Server for Windows](#) and [SSH Server for Windows](#). The reliability, robustness and features of these products have led to its global acceptance and installation all over the world. They have end users and resellers on every continent.

"Our reseller relationships are very important to us at Georgia SoftWorks," said Doug Hitchcock of Georgia SoftWorks. "Each reseller adds another dimension of trust, reputability and support for our products. Buton eBusiness Solutions will be a great addition to our reseller network."

Buton provides software solutions in many sectors, including supply chain management, warehouse management, eCommerce, mobile ecommerce, customer support, sales management, lead management, emarketing, and hosting services/consultancy.

The GSW software products provide unsurpassed security, which is essential in the industries that Buton services. The Georgia SoftWorks Telnet and client applications are industrial quality software designed for superior operation in demanding environments.

###

Established in 1991, [Georgia SoftWorks](#) is a privately held software development company recognized for creating high performance data communications, system and telecommunications applications. Georgia SoftWorks has obtained a worldwide presence with its industrial SSH/Telnet Server for Microsoft Windows. GSW's long-term commitment to SSH/Telnet has led to the pioneering of major features such as Session Shadowing, Session Monitoring, Graceful Termination, Automatic Logon, Logon Scripting and more recently Team Services technology which allows mobile device users to transfer, swap, share and recover mobile device sessions. GSW has also provided the very first SSH Server to provide Digital Certificate Authentication with a Internet Information Server (IIS) like certificate-to-user account mapping. This includes 'One-to-one' and 'Many-to-one' mapping methods and also supports certificate trust lists (CTL).
